

If you have ordered ClassifiedCommand<sup>SM</sup> service (the "Service"), you agree to the Electronic Ads and Services Terms and Conditions and to the following additional terms and conditions:

1. The Service is an add-on service that works with EveryCarListed.com Gold services. The Service provides templates and related software (the "Software") that allow you to produce customized ads for posting to specific classified advertising sites that are not otherwise included in the Everycarlisted.com network (the "Sites"). The Sites are not affiliated with EveryCarListed.com, a division of SuperMedia LLC ("Sublicensor"), and the Sites may change from time to time. You must register with the software vendor to receive the Software. The Service also includes reporting regarding the responses to the customized ads you post.
2. Upon your registration, Sublicensor, hereby grants a worldwide, nonexclusive and terminable right and sublicense (the "Sublicense") to install and use the Software during the term (and notthereafter) for use on your computers in single site or location as provided in your registration, subject to your payment of applicable charges and your performance of your other obligations under this Agreement.

For avoidance of doubt, you expressly acknowledge and agree that each Sublicense will afford you the right to have the Software installed and use the Software on as many different computers of yours as you may desire at a single site or location. For example, if you install and use the Software on five (5) different computers at a single site or location, then you shall only be obligated to pay for one (1) Sublicense hereunder. If you were to instead use the Software on five (5) different computers at five (5) different sites or locations, then you would be obligated to pay for five (5) Sublicenses hereunder, even if the five (5) different sites or locations were all within the same metropolitan area.

You shall not, and shall not permit any of your customers, agents, employees or representatives, to, directly or indirectly, reverse engineer, disassemble or decompile any of the Software or any part thereof or otherwise attempt in any fashion to obtain the source code to any of the Software.

3. Sublicensor is not responsible for support services, which are available for a fee from unaffiliated third parties.
